Now there's no need to poison your lungs with gas to do all these stupid experiments. Or did you think there was still a silly show your phone couldn't do for you? Female Voice Changer for Android is the crazy APK of the day. Just record your voice and listen to how you would sound with different girl voices. All your life you've been wondering what you'd sound like as a child? Or as a baby/girl/teen/woman/grandmother of a different age than yours? Possibly not, that's quite understandable, but now you have the opportunity for your phone to have the opportunity to do a little show and listen to yourself with different feminine tones thanks to this app. It's not the most useful app you can get, but it's fun enough, if you like this kind of humor, of course. Various types of female voices that you will love. What voices can I In this app, you can only make use of different female voices and ringtones (up to a total of 10) with fairly random names: 15 month old baby young woman 20 year old girl 23 year old girl 30 year old girl 45 year old lady 45 year old woman high tone girl low size girl You can download the app for free. It's a very simple tool, but it would be great to be able to save the results to use during a call or share them with your colleagues on social networks. At the moment, your only chance is to listen to the different voices live and in real time. This changes your voice to sound like a great evil troll/monster. Behind the scenes I've done some fancy things with oscillating signals such that it's deeper and slightly distorted (as the monster's voice box is a little damaged or something), and then I've erased the high-frequency parts of the signal to soften it. online troll voice moulator, troll voice, ogre voice converter, ogre voice effect, troll voice effect, troll voice converter This is meant to sound like a booming PA (public announcement) I figured it was from some kind of dystopist authoritarian government telling its citizens what they had to do, but I think I could use it as easily as if it were an AP speaker of the 1950s or something. First it distorts your voice a bit and makes the signal noisy and then adds an echo effect. Inline speaker voice converter, distorted speaker, distorted speaker voice effect This uses a reverse reverb effect to make your voice echo backwards. It gives your voice a creepy atmosphere that sounds like a ghost or spirit of a horror movie. Inline reverse reverb effect, online ghost voice changer, make your voice sound like an online ghost This voice effect just makes it sound like you're standing in a very large room. Echo is applied using a very interesting audio technique known as impulse response convolution. Online echo voice changer, change my voice, convert audio echo online This simply removes high and low frequencies to simulate the effect of your voice being transmitted over a phone. Phone voice effect, phone voice converter, walkie talkie voice effect This adds a very strange wobbly effect to your voice that make it sound like an alien who has learned to speak your language but struggles - it's an alien accent, if you like. Alien voice effect online, alien voice converter This is fun :) Swing your voice between high and low tones in a way that makes time seem not flowing constantly - something has gone wrong with reality. Inline fearsome tone effect, time stretching voice effect, time distortion voice changer This sounds like a strange alien - maybe one that is part robot or something. alien accent effect I have an alien robot environment of this when I ran into it. It's also a bit like an insect. So maybe an alien robot insect. insect alien voice effect online We've all heard the anonymizing voice before, and this one is similar, except that it adds a slight distortion to your voice to make it more on the hacker side of things. Please note that this should not be used for anonymity! It's just for fun. anonymous voice converter, anonymous anonymous voice Voice changer hacker, online voice distorter, online voice costumer, distort voice This simply takes your input audio and reverses it :) Reverse audio effect, inline reverse audio file, backward voice changer, inline voice reversal, inline reverse voice This effect adds some lint and distortion, and plays with the frequency spectrum a little to try to emulate the sound of an old radio. Radio voice modulator, old fuzz radio voice effect This is a stranger. He uses impulse response convolution to create an echo of his voice that sounds a bit like a saucer in a drum kit. Shock voice effect, cymbal voice generator This uses a ring modulator to simulate the same electronics that were used to generate the Voice of the Dalek in Doctor Who. You should try to make your voice sound like the Dalek when you record the audio, and this effect will do the rest. Dalek voice converter, dalek voice generator, online dalek voice changer, dalek voice modulator This adds a wah-wah effect to your voice. The wah-wah effect is often used in certain types of music through the use of a wah-wah pedal. Wahwah voice effect online This adds a constant tone oscillation to input audio that (if applied to singing) can make your sound like your singing vibrato when you are not. Add vibrato to voice online, vibrato voice converter With this effect I tried to create the feeling that it was an epic demon beast thing. Like the Balrog of the Lord of the Rings. Add some crackling effects of fire to the background, deepen your voice, and add a sinister echo. Demon voice converter online, evil voice effect deep voice online This adds an echo that makes it sound as if the voice comes from a huge cave. Online echo voice generator, online echo voice effect This gives your voice a metallic timbre, higher pitch that makes it sound like it came from a robot. Online robot voice effect, online voice changer This gives your voice a very hard, slightly diffuse and robotic sound. This turns your voice into a very small voice that sounds robotic. This adds some random beep boop noises to the background and gives your voice a highly computerized timbre. Computer voice converter, computer voice effect online This makes your voice very slow (fourth speed). Reduce the speed of online audio clip, slow inline voice changer, slow online voice converter This slows down your voice at half the speed. Slow down the audio clip tool, slow down online audio This doubles the speed of your voice. Speed up voice online, speed up the audio clip online This generates an audio clip that is 4 times faster than the input clip. Make audio clip faster online This manipulates the input to make it sound like a very old portable radio. Depending on the noise in the input audio clip, the output can be difficult to understand. make audio clip sound as if it came from a radio, audio clip radio effect, military radio voice changer This cuts your input clip into pieces pieces then stirs them randomly. Mix audio clip, random audio clip Change your voice to make it sound like it came from an old and run down school MEGA speaker. Old speaker effect This effect makes your input audio sound as if it had been transmitted through an extremely noisy medium. add noise to the online audio clip I tried to make this effect sound like the voice of Sauron (from The Lord of the Rings). He doesn't talk much in the movies, but when he does it is very deep and has a slight sinister echo. This is a silly effect that cuts the audio clip into segments, reverses them, and then re-joins them. Sounds a bit like some eastern European languages. This does some funky inversion things that only makes the output audio sound very strange and confusing, but still understandable. Devil's voice changer, deep voice changer, online malignant voice changer make audio clip voice deeper, girl voice changer voice changer, online voice changer, online squiiret voice converter, inline voice effect high tone generator, online computerized voice effect, stephen hawking voice effect changer This effect applies a slight radio-like distortion to the input audio that makes it sound like it's coming from Bane's bane series online voice changer, changing your voice in Bane's wobbly voice effect online
